Vasilinomania
I stood one shining morning where
Dark frowned the crags of Innisvair.
The sunlight's soft and tender ray
On grim Glenartney's summit lay:
And there, upon an ancient rock
That long had braved the tempest's shock.
I saw, inscribed in brilliant green,
The curious legend VASELINE!
And on the ground lay stretched and prone,
His head upon a mossy stone.
With ragged clothes and tangled hair,
And beard unkempt, and bosom bare.
A sleeping man, of stature rare,
With brush and pail beside him there,
With much surprise and some alarm
I spoke, and shook his brawny arm.
Then yawned his hairy visage wide,
And sleeping still the man replied:
"It cured me when I dying lay;
For it I travel night and day;"
"On foot around the world I've been
To sound the praise of VASELINE!"
"From Pole to Pole, through all between,
I've spread the name of VASELINE.
"On mountains high, in forest green,
I paint the name of VASELINE."
"I'd mount the mightly vault on high,
To grave it on the azure sky;"
"To cure all ills on earth I ween,
Heaven sent in mercy, VASELINE!"

THE PROVINCIAL CAPITAL.

Affairs in this city were worse than ever yesterday, and the taking possession of the Cabildo by the National Judges has plunged the 'escribanos' and Provincial Judges into such a vortex of anxiety, that many will fully agree with one of the principal 'escribanos' of this city who yesterday refused to make out an 'escritura,' alleging that he could not subscribe himself or sign 'doy fe' to anything, save that they were all turned out of the Cabildo, and that his Registro was in his pocket.

Governor Rocha had a long interview with President Roca yesterday on this new difficulty about the Cabildo. The Minister of Justice tried to help the Provincial Government in the matter by allowing the Provincial Camara or Supreme Court of the Province to continue its sittings in the Cabildo for the present, but the Judges feel as if they were turned out of their own house.

Each day some new difficulty arises: First it was the double stamp at the Provincial Bank, and this same double difficulty stands to this hour. Then we had the Justice of the Peace difficulty in every parish; this also stands, and now comes the very Cabildo, which has plunged the 'escribanos' in such unutterable woe. Thus difficulty follows difficulty, and so it must necessarily follow until the whole Provincial Government, bag and baggage, moves out to Belgrano or Flores, and Provincial affairs are put upon a right and proper footing. Too long this question has been postponed: private intrigue and interests have been allowed to triumph over the Capital Question. The National Government is perfectly right in taking possession of all these public buildings, since the city is no longer Provincial, and every paving stone in the town is National property.

Any further delay or procrastination will but increase the difficulties of the situation; and the sooner the Provincial Judges move out to Watson's at Belgrano, or the Wanklyn quinta on the Flores Road, the better.

THE FLORES ARCHERY FETE

On Thursday evening the previously announced Archery and Kermesse Fete in aid of the new Flores Church was inangurated, and with all that brilliant fortune and success which invariably attends Flores, her people and their efforts.

A good site, formerly occupied by troops of the line, close to Mr Unzue's palace, was taken by the committee of ladies, of which Madame Leslie was the graceful presidentess: and with every art that lovely woman can bring to the aid of charity, the rude quarters of the military were turned into a smiling parterre, with targets, bows and arrows, Chinese lamps, lawn tennis, seats here and there, promenades facing the high road, a strong buffet, bazaar stalls, and in fact all the usual make up of those eleemosynary institutions termed kermesse, bazaars &c.

Half past 6 p.m. was the hour appointed for the opening of the doors, but such was the zeal thrown into the affair by the ladies of Flores, that long before that hour there were friends to the cause out from town, and at 7 o'clock the place was fashionably crowded.

It is, of course, impossible to enumerate all the people there; suffice it to say, it was the first time, in many long years of residence in this, country, that we saw such a complete blending of Argentine and English nationalities. Nothing could be more agreeably pleasant than to see the English ladies of Flores, most of whom are Protestants, attending the stalls, buffet, wheels of fortune, selling flowers, and bending the bow, all for the building fund of the Flores Catholic Church. It is a cordiality never under any circumstances to be seen in Europe. The native ladies for whose Church the affair was got up, were immensely in the minority; the strongest High English Church people of B. Aires were heart and soul the promoters of the feast.

Mr. W. Leslie and the 'cura' were inseparable the whole evening, whether promenading through the grounds or discussing a split brandy and soda at the buffet; while the Rev. Mr. Spilsbury, the esteemed English Chaplain of Flores, was likewise in his element on the archery ground amongst the Porteña ladies.

Mrs. Leslie, and the charming Vice-Presidentess, Madame Muñiz, assisted by the Misses Methven, Mallet, Brown, Spring and other young ladies, dispensed the buffet.

Mrs. Peters had the wheel of fortune for the children. Mrs. Forrester the diamond-ring raffle and New Year's cake. Madame Torres the childrens' dolls; whilst through the grounds young ladies selling flowers, cigars, &c., were met with at every point.

The archery seemed to suffer from the more attractive allurements of the bazaar, and we saw very few young ladies try their hands at the bow. With the exception of Miss Marguerita Brown, who is a capital shot, few of the young ladies could go near the target, and we freely admit that without the bazaar, &c., the archery business would have been a failure; but as nothing in Flores ever proves a failure, the whole affair was lighted up with a success which will shine over all the English homes in the Village of the Plain, where, we believe, Nature's touches are stronger than elsewhere.

The English community have a neat little chapel on the road, and to adorn it for Christmas all the native ladies profusely gave flowers. The English ladies, not to be outdone in generosity, by their lovely Porteña sisters, took up con amore the cause of the new Flores church, and hence the splendid success of the whole affair.

To-night will be another grand night, and we advise all our friends to take a run out and see and judge for themselves.

NEW MARKING LAW.

For the benefit of our camp subscribers, we give the new Provincial Marking Law; they may draw their own conclusions as to the efficiency and opportunity of same.

Art. 1—Henceforward the only marks allowed in the Province shall be those that have been renewed in conformity with the tenor of this decree.

Art. 2—The Oficina de Marcas shall begin the renewal of marks on the 1st of January of next year, and it shall terminate on the 31st of May of same.

Art 3—The renewal shall be effected previous payment of $500 m/c. for each mark, and the Direccion de Marcas shall hand to the owners receipts, and a "boleto" to the effect.

Art. 4—The boleto shall bear a stamp of the Contaduria General of $500 m/c., with the following print: "Contaduria General—Provincia de Buenos Aires—Quinientos pesos", and a counter—stamp of the Direccion de Rentas, with—"Renovacion de boletos de marcas, 1882."

Art. 5.—The Direccion de Rentas shall ask for the necessary boletos of Art. 3, and the Contaduria General shall take note of their emission.

Art. 6—Payments may be made to the Direccion de Rentas in the capital and to the valuators in the camp partidos, who shall hand to those interested a provisional receipt with the V. B. of the respective Juez de Paz, with the name of the payer, the description of the renewed mark and the partido.

Art. 7—When requesting renewal of mark, same must be accompanied with the boleto of ownership; in case of renewal the original boleto must remain with the valuator or in the Oficina Central. The valuators shall remit these boletos and the money they receive. Government has since decreed that it will not exact the production of the old boleto.

Art. 8—The payments collected by the valuators shall be remitted weekly to the Direccion de Rentas, with the names of those who have paid, and within a term of 30 days the corresponding renewal boletos shall be sent forward to them, to be exchanged for the provisional receipt given by the valuators. The Justices of the Peace meantime shall send a monthly report to the Finance Office, as to the receipts they have checked and with the names of those who solicit the renewal.

Art. 9—Whilst the Oficina proceeds to the renewal of marks and grants new ones, it shall begin deciphering them according to the system invented by the engineer Don Carlos H Pellegrini, and which the Government has bought from his heirs per contract.

Art. 10—Every renewal boleto and new mark shall be entered in the Registro General de Marcas, and placed in order in the deciphering dictionary with—

1st—The name of the actual owner of the mark
2nd—The partido of same
3rd—The date on which it was registered, and the folio in the General Register.

Art. 11—Should it be impossible to decipher the mark by the Pellegrini system, the matter shall be laid before the Minister to be decided.

Art. 12—Should two marks be alike, the older only will be renewed.

Art. 13—According to contract, Dn. Ernesto Pellegrini shall teach the system to all the employees of the Oficina de Marcas and to a commissioner of each of the following partidos:—1, San Nicolas; 2, Pergamino; 3, Mercedes, 4, Lujan; 5, Dolores; 6, Las Flores; 7, Azul; 8, Tandil; 9, Juarez; 10, Baradero; 11, San Jose de Flores; 12, 25 de Mayo; 13, Saladillo; 14, Ajo; 15, Necochea; 16, Bahia Blanca; 17, Patagones; 18, Arrecifes; 19, Lobos; 20, Magadelena.

Art. 14—These commissioners shall present themselves at the Oficina de Marcas before the 1st of January to learn same, and they shall afterwards show how to decipher the marks to commissioners of other municipalities named by the Executive.

Art. 15—The Chief of Police shall give orders to the comisarios and sub-comisarios to learn the system, in order that they may decipher any mark presented to them.

Art. 16—The secretaries of all the municipalities in the camp must learn to decipher within six months, otherwise they shall be dismissed.

Art. 17—A note shall be forwarded to the Consejo-General of Education, showing the great convenience that all the schoolmasters in the province should know how to decipher marks and teach the method to their more advanced pupils.

Art. 18—After the expiration of the term for the renewal of the marks, the Oficina shall present to the Executive the Deciphering Dictionary, so that same may be published and sent to all the authorities of the province.

Art. 19—A committee, composed of the President of the Sociedad Rural, Dn. Roberto Cano and Dn. Jose Maria Jurado shall watch the carrying into effect of these measures.

Art. 20—The Finance Office shall publish a book with the remarks, hints and key to the Alphabet, with the rules necessary to understand and use the Deciphering Dictionary of Engineer Pellegrini; this publication shall be sent to all the authorities of the province.

Art. 21—Let the Governments of Santa Fe, and Cordoba be invited to join the province in arranging a system of marks.

Art. 22—Let it be communicated etc. etc.

The Magellan's Mails.

London, Dec. 16.

Our St. Petersburg Correspondent telegraphs that according to intelligence from Tashkend several tribes of Merv Turcomans have decided to seek the protection of Russia through the medium of the Khan of Khiva. It is said that all tha Tekke population has left Merv, that great destitution prevails, and that several deputations bearing letters of submission have arrived at Askabad.

Yesterday the trial of M Rochefort and the publisher of the *Intransigeant* for libelling M. Roustan was continued before the Assize Court of the Seine. The Public Prosecutor urged that a verdict should be found against the defendants in order to protect the honour of public officials and that of the country. M. Rochefort and the publisher of the *Intransigeant* were, however, acquitted, and M. Roustan was condemned in the costs. Our Paris Correspondent says it would be impossible to overrate the political importance of the acquittal.

Our Correspondent in Tunis sends us an account of a conversation he has had with General Lambert. The general admitted, during the interview, that the Tunis Expedition had been thought of long before it was undertaken, that it was decided upon in 1878, and that the

or any other ingredient beyond Milk and Sugar. DELICIOUS FLAVOUR. Directions as simple as A B C. TRY IT.

Kroumirs were a mere pretext. France could not quit the country, he said, but did not wish to annex it.

A telegram from our correspondent at Constantinople states that the Ottoman authorities insist on searching an English steamer which has arrived there, after discharging 2,000 barrels of gunpowder at Syra, notwithstanding that the master has declared in writing that he has no more gunpowder on board. The British Consulate contends that no right of search exists.

Our Correspondent in Vienna telegraphs that a great sensation was caused there yesterday by the statement in some of the papers that a baker, who escaped from Ring Theatre on the night of the fire, and who returned with candles in order to try and save some of the audience, was arrested by the police for resisting them when they refused to let him re-enter. His wife believed him dead, and his name appeared in the list of the missing. The police then wrote to her to say he was in custody. An inquiry is called for by the Press.

Our Madrid Correspondent telegraphs that the excommunication of the three Liberal papers of Santander by the Bishop has caused much excitement in the town. The printer of one of the papers has declined to allow his presses to be used, and the workmen have refused their services. There is an enormous demand for the excommunicated papers.

An Englishman has been shot dead at Malaga by a sentinel, whose challenge, from ignorance of Spanish, he did not understand.

Our New York Correspondent telegraphs that the overdue steamers continue to arrive and give reports of the same gales described by the others. The agents of the Bath City now believe she is lost.

From the facts which yesterday came to the knowledge of the Foreign Office and the Meteorological Department, it is believed that the missing balloon in which Mr. Walter Powell, M. P., was carried out to sea on Saturday has been seen off the coast of Alderney; and instructions have been telegraphed by Lord Tenterden to spare no exertion in order to find the Saladin or to obtain some traces of its occupant. Another report states that the balloon has been seen of Montrose by the officers on board a passing steamer.

Superintendent Mailon, of the Dublin police, with a party of constables, last evening entered the office of the *United Ireland*, in Abbey-street, and arrested Mr. Burton, a clerk, and Mr. O'Keeffe, sub-editor. They also seized and removed all the papers in the establishment.

Last evening the Lord Mayor's fund for the relief of Irish ladies in distress through the non-payment of rent amounted to about £6,000.

New Leadenhall Market was yesterday opened by the Lord Mayor, who was accompanied by the sheriffs.

Sir F. J. Bramwell, F. R. S., and Mr. Owen Roberts, clerk of the Clothworkers' Company, were yesterday presented with the freedom of the Turners' Company, at a special Court which was held in the Guildhall.

At the annual gathering in connection with the Rotherham Liberal Association last night, a resolution was unanimously passed expressing confidence in the general foreign and domestic policy of the Government. Mr F. J. Fojambe, M. P., Mr W. H. Leatham, M. P., and Mr H. Fitzwilliam, M. P., were among the speakers.

At the School Board for London yesterday Mr Edward Buxton, the Chairman, in reply to a question stated that no intimation whatever had been received from the Home Office as to proposed further inquiry into the charges made against the management of the St. Paul's Industrial School and the expected action of the Public Prosecutor. It was resolved to send a letter to the Home Secretary, asking whether he intended to take any further action in the matter. The debate on the report of the special committee on St. Paul's Industrial School was consequently adjourned till after Christmas. The Board adjourned till the 12th of next month.

A performance was given at the Haymarket Theatre yesterday afternoon in aid of the General Theatrical Fund. The play was 'She Stoops to Conquer,' Mrs. Langtry taking the part of Miss Hardcastle. The Prince and Princess of Wales were present.

Colonel Yolland yesterday resumed the Board of Trade inquiry into the collisions in the Cannonbury tunnel on Saturday morning. Amongst the witnesses was Henry Catherall, rear-guard of one of the trains, who having left his van, went along the carriages telling the passengers to get out and stand against the walls of the tunnel. He began to walk back, but soon became aware that another train was in the tunnel and approaching. Witness put a tog signal on the line, and in so doing fell over a sleeper in front of the coming train, but managed to roll into the six foot way as the train passed at the rate of about eighteen miles an hour. Catherall then made his way to the end of the tunnel, and stopped the advance of any more trains. He was now congratulated by Colonel Yolland on his escape.

Temperature yesterday was inclined to rise except in the south-east, and ranged from 48 at Valentia to 37 at Dover and 34 at Dover.

The stock markets yesterday were quiet and mostly dull, but in some instances, especially so in home railways, prices recovered at the close. Metropolitan District declined about 1 per cent., while other home railways rose ¼ to ½. Grand Trunk of Canada stocks were higher upon a satisfactory traffic return. Consols closed at 99⅛ to ¼ ex div. for the account. £132,000 in gold was sent to the Bank.

EDITOR'S TABLE.

The Pacific Company's steamer Magellan has brought newspapers from England to 16th ult. We give extracts in another column. Rochefort has been acquitted in the action for libel taken against him by M. Roustan. This means that the jury consider the Tunisian war a dirty job of the same kind as Napoleon the Small's campaign in Mexico. A bad smash on a London railway is reported. A monument will be raised in Vienna to the victims (now known to be 1100) of the Ring Theatre horror.

We publish the new Cattle Marking Law in another column, as we know that our camp friends are all anxious to have it by them in plain English.

The Cabildo yesterday was worth walking a mile or two to see. Babel was a fool to it. Such a crowd, such a clatter! The place was thronged with barristers, attorneys, notaries, plaintiffs, defendants, bailiffs, tipstaffs etc etc, all gesticulating and discussing the question of the day and paper cigars. The 'confiterias,' in the vicinity did a roaring trade in 'refrescos', as the high talk and higher temperature naturally made everyone thirsty. No one seems to know when this legal muddle will come to an end.

The Rowe case is getting quite hot, and our native colleagues are taking it up. It is a knotty point for international lawyers, and a very interesting one.

The Archery Fete at Flores began on Thursday night and was a decided success in every way, except as regards archery. Handling a bow is not as easily acquired an accomplishment for ladies as handling a 'beau.' We saw a good deal going on in the latter line. See our leading columns for particulars of this splendid fete.

We published something yesterday, about the famous Irish professional beauty Mrs Cornwallis West. Here is something about her 'low-browed rival,' taken from an English correspondence by the mail:—"To see Mrs Langtry on the stage, everybody in town has been fighting for the last ten days. She appears on Thursday next, and the Haymarket Theatre is besieged with applications for tickets which cannot be granted. The praises, some of them utterly ludicrous in their extravagance, which were lavished over her when she appeared at Twickenham, have led people to believe that a great histrionic star has appeared. It may be so; but those who saw her declare that the only wonder was her great self-possession."

Letters from Corrientes say that sugar growing is assuming some importance in the Northern part of that province, and that machinery is being imported on a somewhat large scale. This is most excellent news. No province in the republic could beat Corrientes if her estimable 'hijos' were less liable to attacks of political hysteria and to fighting in a friendly way on the head of same. For the moment sugar, not politics, is in the ascendant.

A deputation of members of the Society for the Prevention of Cruelty to Animals waited on the National Government yesterday to beg a legal recognition and 'locus standi' for the association. This once granted, we hope to see the Society's officers speedily 'aux prises' with all the brutal carters and 'cocheros' in town, and the latter snuffed out in no time.

The Budget for 1882 contains no provision whatever for a police force this year for either Patagonia or the Chaco. Here's a go! The two policemen in Bahia Blanca may now retire to 'inglorious ease' on the arrears of pay due to them. As for the Chaco, we believe that such a being as a policeman has never been seen in those parts. The Minister of War is taking steps to have the duties appertaining to the suppressed police in both Territories performed by troops of the line.

Amongst the most pleasing items in the European news is the Paris telegram announcing that the United States 'Expedition has found the North Pole ship the Jeannette, and saved her crew. Our colleague Gordon Bennett was right: he said all through that the Jeannette would be found.

We have the following lady-like news from London. The sneer at the end of it reflects solely on the 'too dreadfully horrid wretch' that wrote it, and who, we are happy to say, is only an occasional correspondent of ours:—"Patriotism is not dead. It looks as though every great lady in England had taken up the idea of wearing no goods but those of home manufacture. The Princess Helena is at the head of the movement. She is joined by her sister-in-law the Duchess of Edinburgh. Princess Frederica, the Duchess of Cambridge, and the Duchess of Teck are with them. Seven more duchesses—including those of Abercorn, Argyle, Manchester, Sutherland, Westminster, and Marlborough—place the movement on what may be called the highest pinnacle. Then there are twenty-three marchionesses, including her ladyship of Salisbury and her ladyship of Bath. There follow no fewer than 60 countesses. Among them I do not find the name of Lady Derby, but their ladyships of Breadalbane, Carnarvon, Dalkeith, Denbigh, Dudley, Fitzwilliam, Granville, Jersey, Longsdale, and Zetland all pledge themselves to wear henceforth only British woollen material. After one has got through 60 countesses, viscountesses and mere 'ladies' hardly appear worth regarding, but the list would seem to leave very few titled ladies out of it. The strange thing is, however, that, with all this sudden love of home and home-made stuffs on the part of the great ladies, there is no sign in the dresses one sees, whether in the park or elsewhere, of any change in the ordinary style of dress. The ladies would seem to talk a great deal of sentiment, and then go and buy what they like best, which is what they have been accustomed to buy. The home-trade movement is admirable in idea, but it is a sham."

Don Carlos Casares, we are most happy to hear, was again slightly better yesterday.

Estancieros will be interested in learning that to renew their cattle 'marcas' under the new Law, the Government has decided that it will not be necessary to produce the old 'boleto.'

A camel from Tucuman will be one of the curiosities at the coming Exhibition, at least so our Argentine colleagues say. We were not aware that the camel was indigenous to this country. If a 'white elephant' could be secured to put beside the Tucuman camel, the latter's attractions would be better set off.

There were three heavy wagers made yesterday—two in hats and one in paper dollars—about our lovely countrywoman Mrs Cornwallis West. We are happy to say that an old *Standard* subscriber won both the 'tiles' and the 'tiu.'

Dr del Viso, Minister of the Interior, was welcomed at the Government House yesterday and resumed his portfolio. We salute H.E. and are glad to see him able to return to State business.

All Montevidean high life called on Dr. Avellaneda yesterday, and the papers are unanimous in their cordial welcome. No Argentine visitor has ever before met with such an ovation there as the ex-President of the Republic.

Dr. del Viso had hardly resumed the reins of office yesterday when he signed a decree dividing the Federal District into 20 sections, the dividing streets to be the following: East to West:—Arroyo Maldonado, Centro America, Libertad, Cordoba, Rivadavia, Independencia, Caseros, y Puente Alsina, Garay, Solis y Pavon, Riachuelo. North to South:—Rio de la Plata, Chacabuco, y Maipú, Salta y Libertad, Solis y Garantias, Pasco y Andes, Rioja y Bermejeo, Boulevard.

There was an 'incident' in the Riachuelo on Thursday owing to the captain of an Italian barque having a difference with his pilot and resorting to the stick end of a swab to convince him. The captains argument was so convincing that the pilot made for land and got there safe but sore.

The Municipal architect, Sr. Buschiazzo, who was sent to Montevideo some weeks ago to inspect that city with the view of picking up some hints that might serve for the embellishment of this, has sent in a very interesting report. He says that Montevideo is far better paved than B. Aires, because they take more time and pains with the work down there, and do not 'scamp' it in the harum-scarum way in vogue here, and advises that Montevidean paviours should be employed here in future. Mr. B also makes a most important suggestion which we have over and over again made in these columns, viz, that carts and all heavy vehicles should be prohibited from driving on the tramway lines. Of course they should. The level of every tram line in town has been destroyed by the cart traffic, and hence the frequent 'descarriliamientos.'

Masquerade balls will commence at the Politeama this day week.

The value of an Extradition Treaty was shown some days ago in the capture at Montevideo and surrender to this country of a man who had stolen $9000 and taken passage in the Europa for the Old World. It is strange that this country has hardly any extradition treaties with foreign powers, not even with its great sister and model, the United States. The extended diplomatic service voted by Congress will probably lead to a speedy reform in this respect.

The Municipality of Mercedes has solved the dear meat question and brought the price of this prime necessary down from $38 to $20 per arrobe. Notice is now published in the *Oeste* advising the inhabitants to deal only with the two new stalls where meat is sold at the latter price. The way the thing was done was this. The Municipality offered $20,000 without interest to whoever would bring cattle and sheep to the town and sell the meat there at $20 m/c per arrobe. Two men accepted the terms and are making money, while the old butchers are howling and the people rejoicing. As usual our old friend, Mr. Nicholas Lowe, took a prominent part in bringing about this great reform. We recommend the matter to our energetic Lord Mayor. The inhabitants of the metropolis have for years been victimised by the butchers, and if they were made o 'sterner stuff' food riots would not be unknown here. The contracts for the markets must either run out or be bought up, to relieve the people of the additional cost they put on meat; the heavy Municipal taxes add more dollars to the price of mutton chops, and then the butcher's cut off the joint makes a joint tax on meat unequalled in any other country in the world. Surely it is possible to try the Mercedes plan in this city, outside the radii of the markets.

There was nothing done in the gold market. The double stamp of the Provincial Bank is fairly talked out, and the question of the Tribunals came to the point. All the Provincial escribanos, &c. must soon leave the traditional precincts of the Cabildo: this edifice is the greatest loss of all to the province; the history of Buenos Aires is written on its walls and it is the Tower of the Republic. Many think that the Provincial escribanos will move out much quicker than was anticipated. It is very doubtful if both National and Provincial lawyers will be able to act in harmony in the same building. Minister Romero's trip to the Boca was the talk of the market, as our readers know the Riachuelo Works belong to the Province, but they may be expropriated from the province at any time at cost price plus 20 per cent. If the National Government thinks of expropriation, better do it now than later on; 2000000 pats will do the business at present. Next year 5,000,000 pats won't suffice, since it is rumored that Governor Rocha thinks of beginning business seriously on the Riachuelo. Money spent in the Boca is well spent and both Governments are aware of the fact. There is an under-current of weakness in Cedulas of Series A, whilst Series E is steadily rising. The reason of this weakness in the 5 o/o Cedulas arises from a conviction in the market that some important reforms are contemplated by the Mortgage Bank Board. It is surmised that debtors to the Bank will be enabled to transfer their 5 o/o obligations to the Bank into 6 o/o; this move will naturally knock the legs from under the table, and the amortization of Series A will be rapidly paid off, since the Bank is not obliged to limit same to any extent. The measure would raise Series E and depress Series A. The operation would be a most advantageous one to the Bank and its debtors, and is at present the apparent cause of the weakness in the 5 o/o Cedulas. The operation strikes one as so favorable that it is not unlikely.

The National Bank Share market was heavily beared to-day, but the efforts to bear the market definitely have failed. Prices gave way slightly, and timid holders who had bought up at 125 and 126 realised. The Italian king let go a few shares, but subsequently withdrew from the contest. It is quite evident that there is a heavy attack to bear the stock. The operations were very limited and only 1,400 shares were sold. Rates for cash opened apparently at 127½, fell to 127¼, and closed at 127. For end of the month 1,200 shares were sold at 127¾ and 127½; the market closed at the latter rate. The stock looks weak, but none believe in a serious fall, and heavy holders keep their shares.

The rise in Gas Shares continues to concentrate the attention of the market; the rise to-day was not expected, and the stock may be considered firm at $1,900. 100 shares were sold cash for $1,875, but 125 more were sold for the beginning of next week at $1,900 m/c. Many consider the stock good at $2,000.

We received to-day from London the report of the meeting of the London and River Plate Bank, which has produced such a favorable impression in London River Plate circles. Mr. Drabble's announcement of £144,252, gross profits for the year against £125,031 last year was received with cheers; we hold the report for to-morrow.

The lands in Cordova, partido San Justo, sold by Nat. Government on Dec. 1st at auction in this city have been for the greater part resold, leaving a handsome profit to the sellers who to the present have not paid a copper for their purchase at the auction. The decree approving of the sale of the auction has been just signed and will be published in a few days. These lands are 40 leagues West of Santa Fe and 6 leagues from Sunchales, 36 leagues from Frayle Muerto; they have a splendid future.

Account sales of new wool have been received from Europe showing profits of from 3s to 30s per bale, which is indeed very little.

Delambre sailed to-day full with 2000 bales between this and Montevideo. This ship arrived here on 4th inst, and after discharging and loading in the Parana, leaves again in the short space of 7 days.

Pliny sailed to-day after several days delay, putting in a new crank shaft

Van Dyck arrives here Monday from Rosario, and leaves on Tuesday with 2300 bales.

Mozart is due at Montevideo to-morrow from Liverpool 18 December.

A kind friend favored us with the following telegram from Havre, under date 11th inst, late in the evening:

"Public sales closed without change.

Half of the quantity offered sold.

"Old wools shew a decline of from 10 to 15 centimes compared with closing rates of last public sales.

"New wools shew a decline of from 5 to 10 centimes, as compared with last private sales."

The Camara Sindical has fixed the 25 inst. for the Ordinary meeting of the Bolsa. Shareholders may rely on a handsome dividend of 15 per cent.

Some fine Magdalena wools were sold in the South Plaza this morning at $103; we think that the lot comprised about 1000 arrobas.

An improvement is remarked in both coal and salt.

Some 4 or 5,000 capones have been sold at $40 m/c for chosen animals and 35 'al corte.'

In the saladillo some 4,000 sheep have been sold 'al corte' at $25 m/c.

At afterhours Shares somewhat recovered; the operations were small and the market closed at 128¾, few buyers. Nothing was done in Cedulas.

The steamer Toro has arrived from Bahia Blanca with a full cargo of wool and hides.

The Esperanza leaves on Saturday with a full cargo of merchandize for Patagones.

Such is the squeeze in the cart business that the bales of wool are now being removed in the long carts, employed usually only for carrying barrels and casks. An available cart is considered quite an event, and both horses and drivers are working themselves to death on the strength of high wages.

There was not much doing in the Once this morning; prices are weak and the arrivals are not heavy. More wool has gone to deposit.

A great deal of linseed has been lost in this province, owing to the bad weather. The article is consequently in demand and $13½ to 14 m/c. are offered per arrobe on board. Mr Unzue asks for a fine lot of flax he has $16 m/c. put on board.

The maize fields of this province are in splendid condition owing to the wet season; much corn will be exported in the next month. People say that they have seldom seen such a promising harvest of maize.

The wheat plantations of Buenos Aires were expected to rival the maize fields, and it is the expected, unusually happens; we hear that the harvest will be insufficient to meet the local consumption. Millers will have to buy Santa Fe wheat.

We call the attention of our readers to the Special Telegram in another column from Liverpool.

Mr. Holteroff favored us yesterday with some samples of beet-root seed for the manufacture of sugar. It is the same as that planted in Belgium, France and Germany. Two bales of this seed have arrived here for Mr. Fernando de Mojean. Subscribers can see the samples in our office.

Mr C Casares was slightly better to-day.

Dr. Del Viso, Minister of the Interior, came to the Government House to-day. He looks much better since his trip to Cordoba. Many friends went to visit him.

There is a falling tendency in the wool market. The telegrams from Havre reporting a fall of 10 centimes in the prices has been received by nearly all the exporting houses. A telegram from Messrs Leplay, one of the largest firms in Havre, announces the same fall. This fall in the European market was unexpected, and the 'artistas' are as sad as Galypso, since the large shipments of the month of December will be thrown on a weak market; there is a kind of stand-from-under feeling amongst them, and it is generally thought that there will be dull times for the next two months. The shipments, there is no doubt, were too hurried.

The National Government has issued a most important decree:—

Buenos Aires, January 12th 1882.

Art. 1.—Hereby Dr Wenceslao Pacheco is named within the term of the law, President of the National Bank.

Art. 2.—The named Directors during the curr. year are DonCarlos Saguier and Don Angel Sastre; thanks are tendered to the retiring Directors.

ROCA.

This decree was expected: the Directors named by the Government are a good men and well known.

Exchange nominal, some small amounts done at the usual rates.

It appears that a well-known estanciero has got into a lawsuit, owing to noncompliance with a contract of purchase of hacienda. The purchase refers to some stock from the 'La Verde,' and the party in question possesses a large 'potrero' in Merlo.

2,000 salted novillo hides of the saladero of Messrs Rocca & Co. have been sold at 48 rls. gold; weight of hide 65 lbs.

Mr E L Green has chartered the following vessels:—

English lugger Thornhill to load sugar in the Brazilian port Aracayu for Channel and orders at 50s.

Ital. barque Rosario to load salted hides in the Paysandu saladero for Channel and orders at 35s 6d and 5 o/o.

Swedish barque Ingelhorz to load salted hides in the Paysandu saladero for Channel and orders at 32½s and 5 o/o.

Estancieros who have lost their marking 'boletos' will be glad to hear that the Provincial Government has removed the difficulty by not demanding the presentation of same for renewal. The estancieros must at the renewal of their marks state the case and the causes why the original boleto is not presented. This is good news, as it saves the farmer both trouble and expense, and the Provincial Government deserves the applause of all in waiving the point.

Not long ago we pointed to the great advantages that Corrientes offered as a sugar growing province, and it appears that the industry is raising its head up there, owing to the efforts of foreign and native capitalists. Messrs Martinez & Co. of that province have received all the necessary machinery for their sugar plantations. The machinery we think is English, and was dispatched through the Custom House free of duty.

Mr Domingo Parodi has been named President of the Riachuelo works in the Boca; his predecessor, Mr M N Uribellarrea retires, after handing over all the accounts lately revised and approved by the Government. There seems to be some probabilities that the quays will be repaired, as in some parts they are in the most lamentable condition.

Messrs Moreno and Encina, National engineers, leave this week for the Nahuel-Huapi; they take with them all the necessary instruments to survey, and measure 3,000 square leagues of Neuquen territory. They do not go by Patagones, but will take the railway to San Luis, and thence on horseback they proceed to Mendoza. A map of this territory has been drawn up in an admirable manner by the engineer, Colonel Host.

The balance-sheet of the Provincial Bank shows the favorable condition of that establishment. The letras have increased as well as the deposits and gold reserve. The Bank holds over 1,000,000 pats more gold to-day than in 1880, and the so-called metallic notes have been reduced by 1,300,000 pats. The attention of the Board of Directors seems to be fixed in the opportunity of increasing the gold in the vaults of the Bank.

Messrs Pico & Gomez have sold four square leagues of National lands on the frontier ditch near Tranquelanquen for 45,000 m/c per league; buyers Messrs Bianchi & Costa.

There is some talk of a provisional station of the Western Railway at the Once for passengers. As the limits of the Capital have not yet been defined it will not amount to much.

The following statistics of the Boca will be found interesting:—

The above figures refer to the 12 months of 1880. As can be seen the Boca is growing, and the importance of the place cannot be overlooked. Some efforts should be made to improve this Argentine Genoa, with its wooden palaces.

The camps about Ensenada are to be drained and the Provincial Government has given orders to the Dutch engineer, Mr. Waldorp, to make the necessary studies and draw up the plans of a channel to carry off the waters that generally flood the low camps. It was a happy idea of Governor Rocha to engage Dutch engineers, as no men in the world understand these affairs better. In Holland half the territory if not more has been thus reclaimed and the country enjoys a reputation of [illegible] of the draining of the South camps of Buenos Aires as a task worthy of his efforts; he has to drain a territoty larger than Belgium and Holland put together. All prop etors of lands in Ensenada are in hi h glee and hope to see the channel soon carried out. With reference to drainage, we greatly fear that there is no place so much in want of same as the city of Buenos Aires, and nothing more has been heard of the 8,000,000 pats project to complete the Improvement Works: the bill in question awaits the signature of the Minister.

The following are our latest Rio de Janeiro advices:—

"Coffee—Since our last report, on 23rd ult. dealers here have reduced their currency prices 100 reis per 10 kilos for superior, 150 reis for good first and 50 reis for the grades from regular first downwards, and the sterling cost to-day, owing to the further decline in exchange shows a reduction of ½ per cwt for good, 1/9 per cwt. for superior and medium, and ½ for the lower grades, as compared with the cost on the 23rd ult.

"Notwithstanding this reduction, however, and although receipts continue on a small scale, a very quiet tone has prevailed in the market, owing probably to the absence of better advices from the United States and the large stock accumulated in Europe, as also to the prospects of an early increase in the receipts here if the present fine weather continues.

"The sales since the 23rd ult. have been 86,600 bags and the total sales for the month since the 4th ult. amount to 296,475 bags.

Base de venta $111 m/c la hectarea
El Martes 31 de Enero
A las 3 en punto

Procederemos a vender por orden y cuenta de su dueno, bajo la infima base fijada, una fraccion de campo situada en el partido de Juarez, conocido por Fortin de Las Saladas, campo que servio hace infinitos anos de invernada a las caballadas del General Rivas y que este sitio como campo superior y porque los indios lo usaban anteriormente para ese objeto para inverno de las haciendas. Estos datos los queremos hacer saber al publico para que tenga noticia exacta sobre la bondad de los rios y abundantes pastos de este campo.

La laguna llamada Las Saladas de agua potable y de 4 cuadras por 5, posee vertientes de primer orden y no se ha visto nunca seca, y aguadas de esta en el limite del campo La Totora existe otra laguna de importancia.

Este campo linda con la estancia del Sr. Sta. Marina, Mariano Roldan, Zabala, Bermardo Arriaga, Jose Maria Nunez, Pedro Riza y Leloir.

Llamamos la atencion sobre el bajo precio fijado como base, pues el campo lindero llamado La Totora se vendio el ano 76 en mayor precio que el fijado hoy por este, ademas recordamos al publico la venta ultima de las Lomas de Lara por la cual se ha obtenido a razon de 1,060,000 $ por legua.

La galera que va del Azul a Bahia Blanca pasa por la posta La Gloria que esta dentro del campo del Sr Santa Marina lindero al que ofrecemos.

Quedan aun a pagarse 4 letras al Gobierno por valor de 20,000 $ cada una.

78——ALSINA——78
El Jueves 19 de Enero
A las 3 p.m.

Remataremos a la mas alta postura y dinero de contado pasando la base arriba indicada por orden terminante de sus propietarios y por liquidacion de sociedad estos magnificos campos situados en el Partido de Bahia Blanca, y que podemos reputar sin exageracion alguna los mejores, en cuanto a pastos y aguadas permanentes de aquella localidad ; campos poblados hace area de 31 años.

Los Manantiales—(Plano A)

LOTE No. 1—Una suerte de estancia o sean 3 legua con frente al Naposta Grande arroyo de agua cristalina, permanente y dulce ; linda por el N. Este con D. Sisto Laspiur, por el Sud, Oeste y Nor Oeste con Jorge Clarac ; tiene una poblacion construida de piedra y barro con techo de fierro de 4 reales por vara cocina con techo de paja y un corral de piedra para ovejas, grande y bien situado.

LOTE No. 2—Se compone de 4½ leguas mas o menos sobre el Naposta y linda por el N. O. con los Srs C Heusser Arce y Chautini ; por el N. Este con el lote num. 3, y por el S. Oeste con Cuquet, Bajo Hondo y el Estado. Tiene en el Centro del campo, la Laguna de Manantiales y el arroyito del mismo nombre : las poblaciones son : sobre el Naposta grande uno de dos piezas de material y un pequeño galpon de lo mismo ; otro de dos piezas, uno de adobe crudo y la otra de piedra con un gran corral de piedra para ovejas.

La poblacion de los Manantiales se compone de tres grandes piezas de material de adobe crudo con techo de tabla y fierro ; a mas dos puestos construidos con los mismos materiales que estos ultimos.

LOTE No. 3°—Lindero con el anterior y se compone de 3 leguas aproximadamente con frente tambien al Naposta y fondo hasta el Bajo Hondo; tiene tambien una laguna 'Los Salados', una poblacion sobre el arroyo de una pieza de piedra como las anteriores y dos poblaciones de adobe crudo con techo de fierro.

El total de estos campos, conocidos por los Manantiales dista dos leguas y diez cuadras desde el Esquinero Oeste a la plaza del pueblo de Bahia Blanca y su superficie total segun la reciente mensura practicada por el agrimensor D. Federico Gomez Molina, se compone de 8 leguas cuad. mas 538 cua. cs.

La calidad de la tierra es en todas partes vegetal, arenosa, hasta una profundidad que varia entre media y tres cuartas, pero se nota de una manera bien clara la escelidad de ella, en los parages donde ha sido removida ha brotado subitamente y en abundancia el trevol de carretilla y el alfilerillo, ambos pastos tiernos y dulces.

Aguadas—Tiene el Naposta Grande, las Lagunas, Los Manantiales y Saladas y el arroyito Los Manantiales.

Ademas, se cuecuentra el agua a diversa profundidad en este campo a consecuencia de los accidentes del terreno y que varia desde 1 hasta 13 metros de profundidad.

Pastos—Los pastos son mezclados, encontrandose el alfilerillo, trevol de carretilla, cola de zorro, pasto duro, flechilla, vinagrillo, té pampa, cebadilla y macadieu, predominando en un 80 o/o el trevol, alfilerillo, pasto duro y cola de zorro.

Este campo es apropiado para hacienda lanar y vacuna, indistintamente, la cual se encuentra en tal estado de gordura que se necesita trabajo encontrar animales que sirvan pasa el consumo.

Nueva Roma—(Plano B)

Se compone esta fraccion de tres y tres cuartas leguas cuadradas sobre el arroyo Sauce Chico y sus linderos son por el N E Juan y Eduardo Vidal y Francisco Ceico, por el S E. Francisco D Bezzaur, por el N O los mismos Juan y S Vidal y por el S O. el Sauce Chico, dista este campo del Esquinero Este 4½ leguas de la plaza principal del pueblo Bahia Blanca.

PASTOS—Estos son en general cola de zoro pastos duro y carretilla, existiendo unicamente en sus bajos y muy principalmente en los comprendidos por el arroyo Sauce Chico y Saladillo, Lazaga y Garcia, con gran abundancia el trevol de olor, alfilerillo, mostiza y te pampa Este terreno es apropiado por su mayor estension a la cria del ganado vacuno.

Calidad de la tierra : es semejante a la de los Manantiales y es nota tambien claramente la fecundidad de ella.

AGUADAS—Tiene el Sauce Chico arroyito permanente de agua dulce y cristalina, tiene ademas dos Saladillos o arroyitos.

Los verticales, debido a lo accidentado del terreno, se encuentran desde los 40 centimetros hasta los 11 metros de profundidad.

La venta de esta fraccion se hara de la manera siguiente—

Lote No. 4—Compuesto de una y media leguas cuadrada.

Lote No. 5—Una suerte de estancia o sean tres cuartes leguas con opcion a los Lotes No. 6, y 7, cada lote de ¾ leguas.

Creemos de nuestro deber llamar la atencion de los estancieros sobre estos magnificos campos que como ve por los informes del agrimensor son de primera calidad.

Su situacion no puede ser mejor, distan apenas 2½ leguas del Puerto de Bahia Blanca, destinado a ser el mas importante en toda la costa Sud, de donde podran embarcarse directamente todos nuestros productos de la vasta campana Sud de lo Provincia.

El flete dado alli al riachuelo vale unicamente $3 por arb. de lana y enfardilada la mitad.

Ademas es publico y notorio, la prolongacion del ferro carril del Sud desde el Azul a este punto, asi que puede decirse con seguridad, que estos campos en pocos anos valdran de $600 a 800,000 la legua.

Por planos e informes impresos, ocurran a nuestra casa Alsida 78, desde el 20 del corr, en adelante.

LATEST FROM BRAZIL.

Rio Janeiro, January 1st 1882.

We are now enabled to give the English text of the address presented by Mr. Osborne, the United States minister, on presenting his credentials to H. M. the Emperor.

Sire;

In placing in the hands of Your Majesty the letter of His Excellency, the President of the United States, which accredits me to the Court of Your Imperial Majesty in the capacity of Envoy Extraordinary and Minister Plenipotentiary, it seems not inappropriate that I should make known that I shall best comply with the instructions of my Government, as well as with the promptings of my own heart, by laboring assiduously and unceasingly to preserve, and, if that can be possible, to strengthen the friendly ties which have so long and so happily united our respective countries.

The lofty sense of justice which has ever characterized the intercourse of Your Majesty's Government with the Civilized Nations, and specially with the United States, furnishes a sufficient assurance that I may safely rely upon its hearty cooperation in the task which I have before me.

It affords me much pleasure to assure Your Majesty that the memory of your visit among us is still fresh in the minds of the millions of my countrymen, whose hearts you knew so well how to capture, and, in their behalf, I pray that, Your Majesty may long be spared in the enjoyment of good health, to bless and make glad this people.

His Excellency, the President, has especially charged me to assure Your Majesty that he retains a lively recollection of his brief but pleasant acquaintance with you, and that he values most highly Your Majesty's friendship.

The heavy rains in the third week of December caused the interruption for about eight days of the 22 kilometers of line from S. Simáo to Lago, in S. Paulo.

On the 24th of December the Massapé station, 12 miles from Sobral, of the Camocim to Sobral railway, in Ceara was to have been opened.

The November receipts of the opened part of the Natal to Nova Cruz railway were $6.525 and the expense $7,932.

The November receipts of the Pernambuco railway were $136 331 and the expence $75.782, leaving a surplus of $50.548.

The Rio de Janeiro provincial assembly has passed a bill authorizing the 65 years concession of a railway from the Barao da Araruama line to the right bank of the Rio Grande.

Also a bill guaranteeing a prolongation of the Nitherohy and Rio Bonito branch to Macahe.

Likewise a bill authorizing the sale of the Cantagallo railway.

The bill approved for the sale of the Cantagallo railway and the branch to Rio Bonito authorizes the president to effect it, by public competition, with Manoel Gomes de Oliveira or any person making a more advantageous offer on the following conditions:

Price not under 10,000.000$, besides the cost of material ordered.

Prolongation of the Cantagallo line to a junction with the Leopoldina railway; prolongation to the Rio Grande; prolongation of the Rio Bonito branch to Macahe; construction of convergent branches; making the terminus at the Punta da Armacao of the city of Nitherohy.

6 o|o provincial guarantee of interest, during 15 years, on not over 20,000:000$.

Privilege for 90 years; and zone of 25 kilometers on each side of the old and new lines, including branches; and preference in the construction of connecting lines.

One third of the surplus net earnings over 10 o|o per annum to go to the province until repaid all advances on the guarantee.

Fixing of terms for commencing and conclusion of works, and for filling the plans.

The price to be applied to redemption of the bills held by Baron de Nova Friburgo.

Saving of previously existing interests.

On signing the contract deposit of 50:000$ as guarantee; complete payment within 6 months from date failure therein importing forfeiture of deposit and recission *ab jure* of the contract, without presidential option.

In the latter half of December there was rioting in the Blumenau colony, some 800 of the later colonists reclaiming payments in arrear, helping themselves at the shops and threatening the life of the colonial paymaster, who thought it prudent to disappear, not being desirous of being made the scapegoat of the government sins of ommission. The motto of the colonization department in Brazil has always been "Unready, aye unready."

About 70 deputies have assembled in Rio, being more than required to form a quorum, but the examination of their diplomas will probably absorb several days yet.

Campos, the sugar capital of Rio de Janeiro, is going in for public improvements and it is current that Messrs. Gotto and Clement Wilmot are preparing to execute in it extensive sewerage and water works.

The Minister of Finance has empowered the director of the *Diario Official* to increase the issue from 1,500 to 4,000 at the increased cost of 12:000$ to 14:000$, to permit the gratuitous transmission of the official paper to all the municipal chambers and justices of peace.

According to a statement of the director, derived from post office information, the *Jornal do Commercio*, the leading paper in Brazil, has a circulation of only, 3,429 outside Rio and Nitheroy. Of the above number the province of Rio takes 1,645, Minas Geraes 850, S. Paulo 513, and the remaing 421 to 15 other provinces that take from 5 to 73 each.

The *Jornal do Commercio* says that Baron de Itapua and other capitalists are getting up a 'national' company to undertake the gas lighting of Rio and intend to offer to effect it at a lower price than that of the Rio de Janeiro Gas Company, whose contract has not yet passed the Senate.

In the arbitration on the claim of the City Improvements Company to be still paid by the government the sewerage charge on the 79 premises demolished for the site of the Gamboa railway station, or to be paid the capitalized amount of that tax, the Empire section of the Council of State, acting as umpire, has decided against the company.

Edison's representatives, Messrs. John Moore and Co., have asked the government to appoint a commission of professionals to report on the Edison system of house illumination.

The Dom Pedro II. Docks Company of Rio have obtained authorization to issue debentures for the consolidation of its large floating debt.

The Estimates for 1882 of the Province of Rio de Janeiro passed on the 28th of December.

The clause authorizing the expenditure of 2.500:000$ on the Nitherohy water supply was rejected, but a bill to concede, for 33 years, 7 per cent. interest on 4,000:000$ to a company undertaking to furnish the necessary supply has been introduced and reported favourably.

Messrs. G. N. Norton and R. Normanton have asked licence to explore for petroleum, asphalt and naptha in S. Paulo, between Campos Novos and the sea, and the Tieté and the Verde and Minas.

The definite inauguration of the Santa Cruz municipal slaughter house was effected on the 30th ult. by H. I. Majesty, and the ceremony was attended by a goodly assembly of municipal urubus.

In a short time the scents of S. Christovam will have disappeared.

PARIS LETTER

(From our own Correspondent)

December 8th

The Concerts at the Conservatoire have opened for the season: nothing in Paris more choice, and none but judges of music fill the hall; bald heads are as numerous as ever; the press is badly accommodated, and M. Delderez, the 'chef,' has locks even whiter than snow. The lady choristers, generally dressed in white muslin, appeared in black faille, a reform due to the new Minister of Fine Arts, and that astonished by its suddenness. These concerts have for executants the first artistes in Paris, and the theatre is the most perfect in the world in point of acoustic properties, so much so, that in the re-building of this temple of music, it has been decided to leave the concert hall untouched; the Republic thus does not overthrow everything. As usual, the great attraction of the programme was Beethoven: next Meyerbeer's 'Pater Noster,' the ouverture of Mendelsohn's 'Ruy Blas,' selections from Handel, and Gounod's 'Sappho,' where Mlle. Richard won laurels. The Association of Musical Artistes honored St. Cecilia's day by executing Cherubini's Mass, that he composed when at Chimay, having sought refuge there with the Duchess of that name, after falling into disgrace for his independent remarks to Napoleon I. Cherubini devoted his leisure to botany, never composed a bar: One day a local musical society solicited he would compose a Mass for them; he point blank refused: the duchess placed some music paper and pens on Cherubini's gathered plants, and directed that no one was to notice the composer: next day he did not leave his room till dinner hour, and the following evening he produced the Mass; the Prince de Chimay took the bass part, Cherubini the tenor, Mme Duchamge the soprano, and Auber seated himself at the piano. In theatricals nothing new, save a five act drama by M. Morel, 'La Fille du Deporte;' it has for plot and pivot the cursing of a daughter by a father for her unchastity; this has been already worked up in the two celebrated dramas of 'Grace de Dieu,' and 'La Closerie de Genets'; in the new piece the father swears more fiercely, however.

A tradesman a few mornings ago leaving home, begged his wife to have a good breakfast ready, as he intended bringing back a friend with him: on returning he was astonished at the door not being opened; ultimately he had it forced open, and on entering the dining room, found the meal spread, and his wife hanging dead from a bolt in the wall.

The tramways are ever subject to annoyance by carters wilfully occupying the rails and never displaying willingness to retire; the steam tram that plies between the Arc de Triomphe and Neuilly whistled to a carter to get out of the way; he refused; the engine was stopped; the driver and stokerman descended a row ensued; and the cart backed against the engine, forced the driving rod, when the engine ran backwards at full speed, followed by the driver: ultimately crashed into an omnibus, wounding several.

Parisians had a rare spectacle lately; a fire on the Seine: a barge broke out into flames, and though there was water everywhere, not a drop to extinguish.

During the summer Paris was but scantily watered; at present the streets are ever wet, and the more it rains, the fiercer the watering carts work.

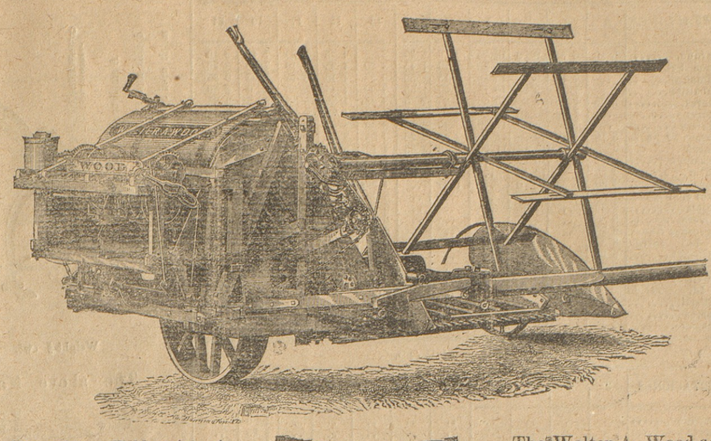
SOLE IMPORTERS OF

WALTER A WOOD'S HARVESTING MACHINES



A Competitive Field trial of Automatic Binders was held at Melbourne, in the Province of Victoria, Australia, on the 29th day of November, 1880, under the auspices of the Melbourne International Exhibition and in connection therewith, but under the direction and charge of the National Agricultural Society of Victoria.

The Machines entered for competition were:—

Walter A. Wood's Twine Binder,

Osborne's Wire Binder, Osborne's Twine Binder, McCormack's Wire Binder, McCormack's Twine Binder, Deering's Twine Binder.

(The judges in making their awards did not take into account the material used in binding, whether Wire or Twine, but were governed by the merits of the machine and quality of work done.)

Result of the Trial:

Walter A. Wood's Twine Binder

Was awarded the FIRST PRIZE.

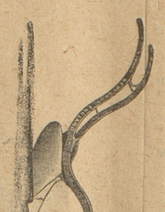
HOWARD'S CELEBRATED PLOUGHS

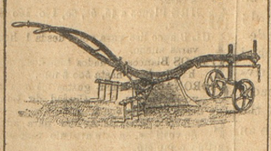
Howard's Small Ridging Plough

A small useful iron plough, fitted with a double mould board or earthing up body, and much used by maize and vegetable growers.



Weight ¾ cwt.

Howard's Water-Furrow Plough



This is a modification of J. & F. Howard's Ridging Plough. It is used for making the water furrows for surface drainage on arable land; the peculiarity of its working is that the earth thrown up on each side of the furrow by the mould boards, is moved away from the edges of the furrow and is harrowed down level with the field, a level surface is thus left for the Reaping Machine, and drainage is facilitated.

With steel breasts, weight 1¼ cwt.

Howard's Potato Ploughs.

With a pair of horses, this implement will raise three to four acres of potatoes in a day; it leaves fewer in the ground than hand digging, and the roots are raised with less bruising or scratching of the skins than by any other method. These Ploughs have stood the test of many years experience, and the demand grows larger annually.

D, fitted as above, weight 1½ cwt.
D D, fitted as above, weight 1½ cwt.
S B, fitted as above, weight 1¾ cwt.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

—o—

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years, in Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists.'

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c., at half the usual cost, and in much less time. The hens had better be 'cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Advertisement.*

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.

STEEL WIRE
